OVERVIEW

Swiftships' 275 ft. Platform Supply Vessel is an all-welded steel vessel built in accordance with A.B.S. and SOLAS class regulations. The primary function of this vessel is to transport vast amounts of supplies and personnel to and from offshore platforms and facilities. Our proven hulls have made our ships recognized as top performers in the commercial industry. Swiftships' partnerships with numerous vendors ensure that our customers receive a range of top quality machinery and electronics options. The functionality of this vessel can be modified in accordance to the operator's preference and needs.
