OVERVIEW
Swiftships’ 175 ft. Fast Supply Vessel is an all welded aluminum vessel built in accordance with A.B.S. regulations. This aluminum crew/supply vessel is designed to transport personnel and supplies to offshore facilities. Its lightweight aluminum superstructure coupled with Swiftships proprietary design allows for high-speed performance and delivery capabilities. These specifications can be modified in accordance to the operator’s preference/needs.

MACHINERY
- Main Engines: Four (4) 1800 HP
- Generators: Two (2) 250 KW
- Propulsors: Waterjets or propellers

ACCOMMODATIONS
- Two Captains Staterooms
- Three 2-man Staterooms

ELECTRONICS
- One (1) 6" compass
- One (1) 12" fog bell
- One (1) Air horn
- Two (2) 10" searchlights
- Engine Controls Mathers
- One (1) Radar
- One (1) SSB Radio
- One (1) VHF Radio
- One (1) Fathometer
- One (1) GPS
- One (1) Loudhailer/Intercom
- One (1) E.P.I.R.B.

OPTIONAL FEATURES
- Generator package
- Electronics package
- Tire arrangement & installation
- General arrangement & color scheme
- Walk-in freezer
- Walk-in refrigerator
- Certification to carry aviation fuel
